WHAT IS TEENHACKS LI?

TeenHacks LI is Long Island's premier 24-hour hackathon. Since Fall 2018, we have hosted over 300 student participants from all over the Northeast between two events in collaboration and garnered tremendous support from the community. Now, we're back for a bigger and better event!

On November 9-10th, over 300 high school students from across the East Coast will get together to learn, create, and share at New York Institute of Technology. We will have professional mentors and an array of workshops. We hope to provide a space unlike any other for students to build whatever they want, share what they make, and compete for prizes. We hope to build a hacker community here on Long Island, with an emphasis placed on innovation and entrepreneurship.

> *TeenHacks LI* has done an **amazing** job bringing the thrill of **coding** to Long Island's **youth**. New York Institute of Technology is delighted to serve as the site of their **biggest** 24-hour hackathon of 2019 as we welcome **programmers, designers, builders, and developers** from all over the region to our Old Westbury campus.
>
> - Nada Marie Anid, Vice President for Strategic Communications & External Affairs @ NYIT

> History shows us that great **innovation** and **discovery** can happen at **any age**. Now more than ever, our future depends on the next generation's ability to **collaborate** to harness **creativity** in order to solve some of the most intractable **challenges** we face. *TeenHacks LI* is **vital** because they promote **breakthroughs** in scientific innovation but also **inspire** our young people to pursue careers in **STEM**.
